Joe,

Are you interested and able to participate in this discussion today? I anticipate that MDEQ will bring up issues concerning some of the contaminants found were under a discharge permit and a state programs for overseeing site investigations. Call me on my cell phone today Personal Privacy / Ex. 6

Rob:

We plan to have folks from our permitting and compliance division participate in this call, in addition to our division administrator (Jenny Chambers). Thanks for being flexible in the scheduling.

Hi Denise,

Tomorrow from 1-2 would work well for Victor and I. We can use the following conference line:

Call in Number: Personal Privacy / Ex. 6
Code: Personal Privacy / Ex. 6

Agenda

1. Next Steps at the site
 - a. Removal program sampling of residential wells
 - b. Overall site next steps and cleanup options
2. Public Outreach Plan

Thanks,
Rob

Rob:

Next week doesn't work for some of us since it's spring break for the local schools and folks are out on leave. Would you be available between 1-2 or 3-4 tomorrow (3/21)?

Denise

Subject: CFAC Discussion

Hi Denise,

I'm curious if you (and any others wanting to participate) have any time Monday-Wednesday of next week to discuss the CFAC site. The purpose of the conversation would be to discuss site conditions and discuss potential future actions at the site. We are interested if DEQ has any tools that could be used at the site given the data collected as part of the site reassessment and we can talk about the potential of further work using under CERCLA.

We're trying to get our report finalized the week of March 31st. We'd like to meet with stakeholders and community leaders sometime in mid-April, as well as hold a public meeting to discuss the results. It'd be great to brainstorm options and then discuss with local leaders to determine which path forward makes the most sense.

Thanks,
Rob
